ACHIEVING EXCELLENCE

2016-2017
STUDENT AND PARENT
HANDBOOK

Team Mountz:

Achieving Excellence Together

Dear Parents and Guardians,

It is my pleasure to welcome you to the 2016-2017 school year and we look forward to an outstanding educational experience for your child here at the H.W. Mountz School, a National Blue Ribbon School in the Spring Lake School District.

We have proactively prepared this Student and Parent Handbook to inform you of important information of our practices, procedures, and policies to serve as a reference and to ensure a safe and successful year. Please take the time to carefully read the handbook with your child, discuss the contents with your child, and to reach out to me if you have any questions.

Please note that the demerit system in the middle school, found under the student expectations section of this handbook, will be in transition this school year while we collaboratively work towards a new positive behavior support system. Therefore, as it is very different than in the past, we will review these new procedures with our students upon their return and with you on Back to School Night.

If I can assist you in any way, please feel welcome to stop in to see me, make an appointment to see me, call me, or email me. In the meantime, the safety, growth, and educational achievement of your child are our paramount considerations every day.

Sincerely,

Dr. Raymond J. Boccuti

STUDENT SERVICES

EXTRA HELP AND INTERVENTION

Extra help is given to students before or after school at the teacher's discretion. This extra help can be requested by the student, parent, or teacher and set up directly with the teacher. The purpose is to support students in gaining proficiency on newly learned material, to review problem areas on homework, quizzes, tests, and projects. While it is expected that all teachers provide opportunities for extra help, please understand this is offered on teachers' own time and is subject to their availability.

Intervention is a formalized system of support that is set up by administration based on overall student performance. It will require the collection of data by the Intervention and Referral Service and may result in small group instruction before or after school with designated intervention teachers. The purpose is to provide additional teaching on skill areas students have shown a pattern of deficiency over time and is conducted in three week cycles.

HEALTH SERVICES

A full-time nurse is available to handle health conditions and emergencies. Any student who wishes to see the nurse must obtain a pass from the classroom teacher. In order for medication(s) to be dispensed, the nurse MUST have a written parental request accompanied by written orders from a physician stating the student's name, dosage, and time to be dispensed. This medication must be brought to school by the parent/guardian in the original container. Under no circumstances will over-the counter medication be administered by the school nurse, nor should any student carry over-the-counter medication. The nurse can be reached directly (732-449-6380 ext. 419).

GYM EXCUSES

The school nurse issues one day gym excuses for temporary disability or other similar circumstances. A student may also be excused by the school nurse upon written request from his/her parents. Excuses from a physician must be filed with the school nurse as part of the student's permanent health record. The nurse will then notify the physical education teacher. A physician's note is required for a student to resume gym following a serious illness or after an injury. This note must be filed with the school nurse, who will then notify the physical education teacher. A student injured during a physical education class must report immediately to the teacher and then report to the nurse.

CHILD STUDY TEAM (CST)

The Child Study Team consists of a school psychologist, social worker and a learning disabilities/teacher consultant. Depending on individual student needs, the school's occupational therapist, physical therapist and speech therapist are included on the team. The CST conducts evaluations and delivers related services to children with disabilities. The Child Study Team is responsible for the child's initial evaluation, eligibility determination, development review and revision of the Individualized Education Program, reevaluation and placement.

EMERGENCY SCHOOL CLOSING

School will normally be kept open in accordance with the current school calendar. In the event of an emergency closing, Code Red phones calls, e-mail alerts, website announcements and radio announcements (WJLK 94.3 The Point) will indicate an emergency closing.

In the event that an emergency requires the closing of school during the school day when students are already in school, the school office must have the emergency numbers (cell phones) of the adults who will be responsible for the child in an emergency. Your child should know what to do in case you are not at home following an emergency dismissal.

DISMISSAL PROCEDURES

The safety of our children is our highest priority every day. For this reason we have set up procedures for the safe arrival and dismissal of our students. Please do not send your child to play on the playground before 8:20 A.M. since no supervision will be available at that time.

To help us ensure that your child is safe at dismissal, parents must make the school aware of dismissal arrangements for their children. A dismissal procedure form must be completed by the first day of school.

The following are the school locations for student dismissal.

Pre-K, K, Grade 1	Main entrance on Tuttle Avenue
Grade 2-4	Side door on 4th Avenue
Grade 5-8	Side exit on the blacktop/field side

BICYCLES

All students, beginning in Grade 3, are eligible to ride their bicycles to and from school. Students in Grades K-2 may ride their bicycles to school if accompanied by a parent or adult guardian.

Bicycle racks are provided on the playground and near front entrance and all students riding bicycles are requested to use these racks. Students are individually responsible for locking their bicycles during the school hours. Please remind your children that riders are legally responsible for obeying traffic rules and they should practice good safety at all times.

*Important – Bicycling in New Jersey is regulated under Title 39 of the Motor Vehicle and Traffic Regulation laws. As per Title 39:4-10.1 – In New Jersey, anyone under 17 years of age that rides a bicycle or passenger on a bicycle, or is towed as a passenger by a bicycle **must** wear a safety helmet. *The school will hold fall and spring bike safety events.

TELEPHONE / CELL PHONES

The telephones in the building are for emergency use only. Students may not use cell phones during school hours without permission. Cell phones may not be used when students are participating in a school-sponsored activity without permission. A cell phone may be used on a field trip as long as the supervising teachers/administrator has granted the student permission. School personnel will confiscate from students any electronic equipment not appropriate in the school setting. Students who do not follow the cell phone rules will face disciplinary action. (As per School Behavior Expectations)

LUNCH PROGRAM POLICY

All K-8 students will have 40 minutes to eat lunch and have recess. Students eating in school must remain on the school grounds for the lunch period and will be supervised during this time. If your child is permitted to leave the building to have lunch, it is essential that you send a note to the office informing us of such permission. Students who do not eat lunch at school should return no earlier than five minutes before the end of the lunch period and not later than the late bell.

Information regarding ordering lunch from local vendors can be obtained through our website.

The lunch schedule will be as follows:

11:35 – 12:16 P.M.	-	Grades K-5
12:16 – 12:57 P.M.	-	Grades 6-8

Lunch periods are 40 minute periods. In order to reduce congestion and maximize supervision, lunch periods will be split.

Monday through Friday – Grades K-2 will eat for the first half of the period and attend recess the second half of the period. Grades 3-5 will attend recess first half of period and eat the second half of the period.

Monday through Friday – Grades 6-8 will eat first half of period and attend recess the second half.

They are to remain away from the building in their designated area until the signal to return is given by the Principal or authorized representative.

During a crisis in or around the H. W. Mountz School, it may become necessary to secure or “lockdown” the building. The purpose of the lockdown of a building is to ensure the safety of students and school employees by avoiding direct contact/confrontation with an individual(s) or situation which might present a danger. (NOTE: These procedures may also be used for non-emergency lockdowns associated with drug searches of the building.) Specific procedures for keeping children and staff safely in their respective classrooms are outlined in the school’s Critical Emergency Response Plan (CERP).

*As per state code the school will hold two emergency drills each month. These will include lockdowns and emergency evacuations.

PHOTOGRAPHS OF STUDENTS

Taking pictures of district students and the school building for commercial purposes is prohibited without written approval of the Chief School Administrator.

ATTENDANCE AND TARDINESS

New Jersey School Law requires every parent/guardian of a child between the ages of six and sixteen to attend school. The child must attend school continuously until the age of sixteen. Excessive absence is one of the foremost reasons for pupils being unsuccessful in their school work. Good attendance and punctuality must be stressed by parents and school personnel for the benefit of the students.

Students are expected to be in attendance on all days that school is in session. A student must be in attendance for 162 or more school days in order to be considered to have successfully completed the instructional program requirements of the grade/course to which he/she is assigned.

NJ SCHOOL PERFORMANCE REPORT REQUIREMENTS

In the best interest children and their classmates, it is sometimes important and necessary to keep your child out of school. While your decision to keep your child out of school is your decision as a parent, we also have strict guidelines we need to follow as a public school district.

As part of the NJ Annual School Performance Reporting requirements we are expected to report the number of students who are on the path to missing 10% (18 days) of our 180 day school calendar. As part of this report we must generate an action plan to address students who are missing this number of days at the end of the school year.

To ensure the number of days students are out during the school year parents will receive a letter from the Superintendent/Principal each month he or she has exceeded the 10% mark for the number of possible days to date. The purpose is to help guide parents in making decisions about absenteeism for the rest of the school year.

REPORTING ABSENCES AND MAKE-UP WORK PROCEDURES

Under NJAC 6A:16-7.6 The Spring Lake Board of Education can only permit excused absences from school for religious holidays approved by the State of NJ. A note must be received to permit an absence to be considered excused under this requirement

A student will be considered to have attended school if he/she has been present at least four hours during the school day. A pre-school student will be considered to have attended school if he/she has been present at least two hours during the session to which the student is assigned.

If your child must be absent from school, please call the Attendance Mailbox at 732-449-6380 (dial 418) between the hours of 6:30 a.m. and 8:45 p.m. to report the absence and the reason for the absence. School personnel will call parents and guardians who have not called by 9:00 a.m. in the event of a child's absence.

A student returning from an absence of any length must present a written statement, dated and signed by the parent(s) or legal guardian(s) for the absence in order to qualify for an excused absence. For any absence, a note must be submitted to the homeroom teacher the first day the child returns to school.

If a student is absent for 4 or more consecutive days, a doctor's note must be submitted to the school nurse the first day the child returns.

Students who are absent from school, for any reason other than an excused absence, are prohibited from participating in school-sponsored activities on the day of the absence.

As per Board policy 5113, a student in excess of 4 cumulative unexcused absences may be subject to investigative and corrective action procedures by administration.

Make-up work for one day absences will be provided when the child returns to school. If your child is absent for two days or more an approved reason, parents/guardians can request the homework when reporting the absence or, in any case, no later than 10:00 a.m. on the day requested. In order to obtain make-up work for unexcused absences (i.e. vacations), parents/guardians must give forty-eight hour notice of the absence. Assignments will be provided for no more than 5 consecutive days of unexcused absences.

It is the responsibility of the student to return all completed assignments to the teacher for credit upon return to school.

TARDINESS

Students are considered on time to school when they are in school at 8:35 A.M. Any student not in school at 8:35 A.M. will be considered tardy. A student in grades 6-8 who accumulates 3 or more incidents of being tardy per marking period will be assigned to after school detention.

Students are considered tardy when they arrive at school after the opening bell. When a student is late for school, he/she must report to the receptionist office for a late slip. If a student reports late to school with a parental note explaining the reason for the lateness, this tardy will be considered an excused tardy. School administration will decide on the appropriateness of the parental excuse.

Excessive tardiness (both excused and unexcused) will be dealt with on an individual basis.

The following regulations are designed to enhance the on-time arrival of all students for the beginning of their instructional day:

- A. When a child accrues three (3) incidents of being tardy in a marking period, a letter is sent to the parents by the Chief School Administrator;
- B. If a child reaches six (6) incidents of being tardy in any 2 marking periods, a letter requiring parental action to modify the tardy behavior will be sent by the Chief School Administrator;
- C. In addition, a student in grades 6, 7, and 8 will receive one day of after school detention;
- D. On the seventh and eighth incident of being tardy, the office will call the parents of the child and inform them of the infraction. Detention will also be administered out to students in grades 6, 7, and 8;
- E. On the ninth incident of being tardy of the school year, the Chief School Administrator will send a letter to the parents requiring a conference of parents and child with the Chief School Administrator for the purpose of formulating a plan of action to remediate the tardiness;
- F. If a child accumulates six or more incidents of being tardy but has shown significant progress in modifying his/her late behavior, the Chief School Administrator, at his/her discretion, may waive any future detentions or consequences in order to have the student begin a marking period with a "clean slate".

HOME INSTRUCTION

To provide uninterrupted education for pupils unable to attend their regular classes because of illness, disability, court order or administrative action, the Board of Education shall provide away-from school instruction when proper application has been made and subject to the following restrictions:

- A. The period of absence must be expected to be longer than two weeks except in special circumstances.
- B. A parent/guardian or appropriate adult authority must be within call during the period of instruction.
- C. In cases of illness or disability, medical certification is required both of the necessity for the pupil's absence and his/her fitness to benefit from the instructions.

Each case must be approved by Board of Education action; all requirements for receipt of state aid must be fulfilled.

The board shall provide home or out-of-school instructional services no later than five (5) days after the student has left the general education program.

HEALTH SERVICES

The Board of Education employs a school nurse in order to ensure the health and safety of all students. The school nurse administers first aid in cases of accident or sudden illness. She also teaches health classes, conducts health screenings and supervises appropriate implementation of health physical and immunization procedures. These screenings are administered as a preventative measure to identify possible physical problems. The school nurse is available to staff and parents for consultation and assistance with school health issues.

HEALTH OFFICE PROCEDURES

1. Students come to the health office when sent by teachers or school aides.
2. Requests for children to be excused from physical education or recess must be submitted in writing to the school nurse prior to the time of class. In the event of an excuse for more than one day, a physician's note indicating the reason for the excuse and the starting and ending date of the excused period must be on file with the school nurse.
3. Students are not to call parents on the phone when they are ill. Students must report to the nurse, who will make the decision and call the parent.
4. Parents/Guardians or a designee are expected to pick up an ill child in a reasonable amount of time.
5. Children will only be released to an individual listed on the emergency card or with verbal permission from the parent. The person will be required to show identification.
6. Emergency cards are sent home annually and must be returned promptly to school. Parents/guardians should notify the school immediately if there are any changes.
7. The school nurse must be advised of any medication that students are taking.
8. Upon return to school from a serious injury or illness, students and their parents must meet with the school nurse prior to being admitted back to school. At this time any accommodations (i.e., exemption, use of elevator, etc.) must be outlined by the student physician, in writing, to the school nurse.

MEDICATION GUIDELINES

School nurses are not permitted to dispense medication without a doctor's written permission. A doctor may prescribe medication that can be given to a child during school hours. Only those medications that meet the student's health needs for a specific period of time may be given during the school day.

Guidelines for administering medication during school hours are as follows:

Parents/Guardians should obtain an "Authorization for Administering Medication in School" form from the school nurse.

Only written orders from doctors are acceptable.

They should include beginning and discontinuation dates as well as the diagnosis of the disease. In addition, doctors should indicate whether medications will need to be given on school trips, or if the dose may be skipped or rescheduled for later that day. A written note from parents/guardians is also required when any medication is to be given by the school nurse.

All medication must be in a pharmacy labeled container.

The container must be labeled with the student's name, medicine identification, dosage, dates and times to be given. The doctor's and pharmacy telephone numbers are needed in case of unanticipated side effects.

All nonprescription drugs are to be handled the same as prescription medications.

Therefore, the nurse will administer drugs such as aspirin, Tylenol, antihistamines or cough syrup only on receipt of a written note from the doctor and the parent/guardian.

A labeled bottle of the over-the-counter medication must be provided.

Parents/Guardians must bring the medication to the school nurse along with the notes from the parent/guardian and the doctor.

Students are not permitted to carry any type of medications at any time. This includes during school sponsored activities and field trips.

Pupil Self-Administration of Medication

The board shall permit self-administration of medication for asthma, diabetes or other potentially life-threatening illnesses by students who have the capability for self-administration of medication, both on school premises during regular school hours and off-site or after regular school hours when a student is participating in field trips or extracurricular activities. Parents/guardians of the student must meet the following conditions:

- a. Provide the board with written authorization for the student's self-administration of medication;
- b. Provide written certification from the student's physician that the student has asthma or another potentially life-threatening illness and is capable of and has been instructed in the proper method of self-administration of medication;
- c. Sign a statement acknowledging that the district shall incur no liability as a result of any injury arising from the self-administration of medication by the student and that the parent/guardians shall indemnify the hold harmless the district and its employees or agents against any claims arising out of the self-administration of medication by the student.

An approved Automated External Defibrillator (AED) will be available and maintained on the premises of HW Mountz School (outside the gym and outside the cafeteria). There will also be a portable one to be used during outside sporting activities. No valuables are to be left in lockers. Please notify your teacher or the office if your locker is in need of repair. Do not attempt to force the locker open.

TECHNOLOGY ACCEPTABLE USE

We are pleased to offer Spring Lake Public School students access to the school's electronic network. Parental permission is required for all students under the age of 18 prior to accessing the network via an acceptable use consent form. Access to the Internet and network will enable students to explore thousands of libraries and databases throughout the world. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. Our intent is to make Internet access available to further educational goals and objectives. A school-sponsored firewall has been established which is designed to block inappropriate sites.

These are the expectations for all students accessing the network:

- Appropriate language use while using the network
- Report all concerns or misuses to the teacher
- Follow all school rules of behavior*
- Be responsible for keeping technology in good working condition
- Follow instructions given by teacher
- All resources used, including web sites, are given appropriate credit
- Respect privacy of other people's work
- Accessing only appropriate, educationally-related sites; Blogs, Wikis (i.e., Wikipedia) and Social networking websites (i.e. Facebook/My Space, etc.) are not permitted in the school setting
- Obtain a teacher's permission prior to downloading anything from the Internet
- Never give personal information, such as name, address, age, or telephone number

Within reason, freedom of speech and access to information will be honored. During school, teachers will guide students toward appropriate materials and support them in learning appropriate technology etiquette. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio and other potentially offensive media.

*Inappropriate use of Internet may result in loss of privileges of school computers. Parents will be notified immediately if this should occur.

1-1 Computing Initiative

H.W. Mountz School is committed to providing our students and faculty with a learning environment necessary to excel in a technologically integrated society. This commitment has led us to deliver a 1-1 technology initiative this school year in grades 3-8. Through this program, we will enhance student learning while improving achievement in the core content areas. By preparing our students with the knowledge and skills necessary to succeed in an evolving technological landscape, this program will enhance capabilities and collaboration relative to the education and workforce expectations of the 21st century. We believe this program will connect our faculty and students through collaborative applications both in and outside of our “traditional” classrooms and school building.

As a complement to the school’s vision for the use of technology each student and teacher in grades 3-8 at H.W. Mountz School will be issued a Chromebook for use during the school day. This 1-1 initiative, coupled with professional development for staff, will enhance the educational process for our students and teachers. Students are able to take the devices home as per the Chromebook Policy Handbook posted on the district website.

BYOD - BRING YOUR OWN DEVICE

Along with the 1-1 initiative, we encourage our students to use their own devices as well. The use of these devices is strictly subject to the discretion of use by the teacher and is subject to all the rules and expectations for technology devices provided by the school. These devices may not be used during the school day without the permission of the staff member responsible for the student at that time. Violation of the use of personal devices as outlined in the Acceptable Use Policy and Permission slip may result in the confiscation of the device and consequences as outlined in the School Behavioral Expectations.

HARASSMENT, INTIMIDATION AND BULLYING – Policy #5131.1

The Spring Lake Board of Education believes that a safe and civil environment in school is necessary for students to learn and achieve high academic standards. Since students learn by example, school administrators, faculty, staff, and volunteers are required to demonstrate appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation or bullying. Harassment, intimidation or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment. Therefore, the school district will not tolerate acts of harassment, intimidation or bullying.

The Board of Education expects all students to treat each other with civility and respect and not to engage in behavior that is disruptive or violent. The board expects students to conduct themselves in keeping with their level of maturity, with a proper regard for the rights and welfare of other students, for school personnel, for the educational purpose underlying all school activities, and for the care of school facilities and equipment.

The standards of character education are an essential component of the Spring Lake School District's Code of Conduct. The board believes that with the appropriate infusion of character education into the school curriculum, modeling of appropriate behavior by adults; support and assistance of students in school, the community and home; our students will achieve the above standards of character education.

The board prohibits acts of harassment, intimidation or bullying against any student. School responses to harassment, intimidation and bullying shall be aligned with the board approved code of student conduct which establishes standards, policies and procedures for positive student development and student behavioral expectations on school grounds, including on a school bus or at school sponsored functions. The Chief School Administrator shall be responsible for ensuring the prompt investigation and response to all reports of harassment, intimidation and bullying committed on school grounds, at school activities and on school buses. In addition, the Chief School Administrator shall ensure that this policy is applied to incidents of harassment, intimidation and bullying that are committed off school grounds in cases where a school employee is made aware of such actions. The Chief School Administrator has the right and authority to impose a consequence on a student for conduct away from school grounds that is consistent with the board's approved code of student conduct, pursuant to N.J.A.C. 6A:16-7.1 and N.J.A.C. 6A:16-7.6.

“Harassment, intimidation or bullying” is defined as any gesture, any written, verbal or physical act, or any electronic communication, whether it be a single incident or a series of incidents, that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic, that takes place on school grounds, at any school-sponsored function or on a school bus, or off school grounds, in accordance with law, that substantially disrupts or interferes with the orderly operation of the school or the rights of other students, and that:

- A. A reasonable person should know, under the circumstances, will have the effect of physically or emotionally harming a student or damaging the student’s property, or placing a student in reasonable fear of physical or emotional harm to his/her person or damage to his/her property; or
- B. Has the effect of insulting or demeaning any student or group of students; or
- C. Creates a hostile educational environment for the student by interfering with the student’s education or by severely or pervasively causing physical or emotional harm to the student.

“Electronic communication” means a communication that is transmitted by means of an electronic device, including, but not limited to a telephone, cellular phone, computer, or pager.

VANDALISM/VIOLENCE – Policy #5131.5

Vandalism

The Spring Lake Board of Education views vandalism against school property by students as reprehensible. The causes of such misbehavior often are complex, calling for careful study by parents/guardians, school staff and appropriate community officials.

The board believes that students should respect property and take pride in this district. Whenever a student has been found to have done willful and malicious damage to property of the board, the Superintendent/Principal or his/her designee shall investigate and address the matter. The board will hold the student or his/her parents/guardians liable for the damage caused by him/her.

When vandalism is discovered, the administration is directed to take such steps as are necessary to identify the vandals. If students have taken part in the vandalism, the appropriate administrator shall:

- A. Identify the students involved;
- B. Call together persons, including the parents/guardians, needed to study the causes;
- C. Decide upon disciplinary and/or legal action possibly including suspension. Should parents/guardians fail to cooperate in the discussions, the administration may charge the student with being delinquent by a petition stating the offense and requesting appearance in juvenile court;
- D. Take any constructive actions needed to try to guard against further such student misbehavior;
- E. Seek appropriate restitution.

Violence

Physical violence including assault with or without a weapon, against another student, a staff member or board member is prohibited and will result in the disciplinary sanctions included in policies on suspension, expulsion and conduct/discipline. Disruptive behavior that is characterized by violence, even though not directed toward another person, should be reported by the classroom teacher to the Superintendent/Principal, unless instructed otherwise, so that possible program adjustments may be identified.

Any student who is convicted or adjudicated delinquent for possession of a firearm or a crime while armed with a firearm or found knowingly in possession of a firearm or any school property or on a school bus or at a school-sponsored function shall be immediately removed from the school's regular education program for a period of not less than one calendar year. The Chief School Administrator may modify this suspension on a case-by-case basis. Each student so removed shall be placed in an alternative educational program or on home instruction and shall be entitled to a hearing before the board.

Any school employee observing or having direct knowledge from a participant or victim of an act of violence in the district public school(s) should complete the standard report form and submit it to the Superintendent/Principal. Staff will report accurately and not falsify information.

The board shall provide ongoing staff training, in cooperation with the Department of Education, in fulfilling the reporting requirements pursuant to N.J.S.A. 18A:17-46.

Two times each year between September 1 and January 1 and between January 1 and June 30, the Board of Education shall hold a public hearing at which the Chief School Administrator reports to the board all acts of violence, vandalism, and harassment, intimidation, or bullying (HIB) which occurred during the previous reporting period. The report shall include the number of HIB reports in the schools, the status of all investigations, the nature of the HIB, and other data required by law.

Threats of Violence

The board is committed to promoting healthy relationships and a safe learning environment. Therefore, it shall not tolerate student threats of harm to self or others or other threatening behaviors, including threats to damage school property. Threatening behaviors shall not be tolerated on school property or at activities under the jurisdiction of the board.

Pupils shall inform a teacher, guidance counselor or Superintendent/Principal when he/she is in possession of knowledge of such threats. Staff shall immediately notify the principal of any threat or threatening behavior that he/she has knowledge of, has witnessed or received. All such threats shall be promptly reported to the appropriate law enforcement agency.

Pupils who perpetrate threatening behaviors shall be disciplined in accordance with policy and regulations on suspension and expulsion and conduct/discipline.

WEAPONS AND DANGEROUS INSTRUMENTS – Policy #5131.7

The Spring Lake Board of Education prohibits the possession and/or use of firearms, other weapons, or instruments that can be used as weapons on school property, on a school bus, at any school function, or while enroute to or from school or any school function.

For the purpose of this policy “weapon” includes but is not limited to those items enumerated in N.J.S.A. 2C:39-1r. The Superintendent/Principal shall make the final determination that a particular object is a dangerous instrument in any case where there is a question of its possession or use posing a threat to students, staff or property.

Any student who is convicted or adjudicated delinquent for possession of a firearm or a crime while armed with a firearm or found knowingly in possession of a firearm on any school property, on a school bus, or at a school-based function shall be immediately removed from the school’s regular education program pending a hearing before the board to remove the student from the regular education program for a period of not less than one calendar year.

The Superintendent/Principal or his/her designee shall be responsible for the removal of such a student. The Chief School Administrator may modify a student’s removal on a case-by-case basis. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

A student found or observed on school property or at a school event in possession of a weapon or dangerous instrument other than a firearm shall be reported to the Superintendent/Principal or his/her designee immediately. The Superintendent/Principal or his/her designee shall immediately inform appropriate law enforcement officials with all known information concerning the matter, including the identity of the student involved.

Assault by a student with a weapon on a teacher, administrator, board member or other employee of the board is strictly prohibited and shall result in the student’s immediate removal from the general education program for a period not exceeding one calendar year. Subject to a hearing before the board, the student shall be placed in an alternative education program.

The Chief School Administrator shall determine at the end of the year whether the student is prepared to return to the regular education program in accordance with procedures established by the Commissioner of Education.

Disciplinary action shall be taken against students who possess, handle, transmit or use firearms, other weapons, or dangerous instruments. Classified students shall be disciplined in accordance with their IEP and in compliance with law and administrative code. As in all disciplinary cases, due process will be provided (see policies 5114 Suspension and Expulsion and 5131 Conduct/Discipline).

A violence and vandalism report shall be filed whenever a student is found to be in possession of a firearm, other weapon, or dangerous instrument.

Your cooperation will be greatly appreciated. If you have any concerns, please contact Mrs. Kerri Walsifer 732-449-6380 ext. 428.
